

Jonathan Bosworth

Content Designer

weathercat@gmail.com | (904) 537-8394 | Jacksonville, FL (Remote)

jonathanbosworth.com | linkedin.com/in/jonbosworthjr

summary

Experienced content designer who uses language as a primary design material to craft personalized, data-informed product experiences that feel clear and trustworthy. At Credit Karma, built the content model driving a company-wide personalization system serving 100M+ members, and later designed the behavioral framework distinguishing "discover" from "manage" experiences on Credit Karma Money's dashboard. Comfortable working from research and A/B testing data to inform the content strategy of an experience.

skills

Content Design · UX Writing · Content Strategy · Information Architecture · Data-Informed Content Strategy · Human-Centered Design · Content Frameworks & Design Patterns · Cross-Functional Collaboration · Scalable Content Systems
Tools: Figma (incl. interactive prototyping) · FigJam · Miro · Jira/Atlassian Suite · AI-assisted prototyping tools (v0, Lovable, Cursor, Claude) · hands-on LLM prompting and prompt engineering

experience

Principal Content Designer & Product Manager • Groundswell Research & Storytelling •
Sep 2025 – Present

- Leads multi-channel storytelling strategy for concurrent clients, using AI to accelerate research, content, and asset generation.

Design Director & Creative Strategist • Hi Design • Jun 2025 – Sep 2025

- Led AI adoption strategy and digital experience design for Hi Design's multi-client roster, from startup to enterprise scale.

Career Break • Family Medical Leave • Aug 2024 – May 2025

Principal Content Designer • Intuit Credit Karma • 2018 – 2024

- Led content design for Credit Karma's Stories system, a personalization engine spanning 9 business verticals. Built the content model governing four distinct story types (Data Monitoring, Recommendation, Signal, Feature Discovery), each with its own behavioral logic.
- Disproved the team's working assumption that surfacing offers lower on the page would reduce revenue. Testing showed personalized, contextual content increased engagement and revenue at the same time.
- Built a behavioral-science framework distinguishing "discover and activate" from "focus and manage" experiences on the Money dashboard, driving feature discovery up 19–54% and

feature adoption up 4–45%.

- Verified outcomes: 112.2M returning users, the highest on record, up 13% year over year; 11% higher revenue per user; 11.2M members seeing Stories every month.

Lead Content Designer • randrr • Nov 2016 – Mar 2018

- Sole content designer for a 0-to-1 HR tech startup. Ran scrappy, self-directed research (guerrilla testing, Amazon Mechanical Turk, Intercom) to inform product decisions.

Content Designer & Product Strategist • Adecco (Ignite incubator) • May 2015 – Jul 2016

- First exposure to ML-driven product design (Wayfind, a career-pathing tool). Identified training-data-quality and org-vs-user-misalignment failure modes that shaped later work.

Additional Experience

Chief Strategist, hi. (2013–2015) · Manager, Content Strategy, Vizergy Digital Marketing (2011–2013) · Managing Editor, EU Jacksonville (2005–2008)

education

Flagler College • B.A., American Literature & Creative Writing, cum laude • Sigma Tau Delta (international English honor society)
